

Job Description – INTERN Quality Control Engineer

Role:

How would you like to join an international software development center in Vietnam to learn, to grow personally as well as professionally, to gain valuable experience in a fast-paced environment?

An exciting **INTERN Quality Control Engineer** opening has been available for those who are interested in developing and executing exploratory and automated tests to ensure better product quality. You will be responsible for developing and implementing tests, debugging and defining corrective actions. You will also review system requirements and track quality assurance metrics (e.g. defect densities and open defect counts.)

Responsibilities:

- Design and develop tests, working with team members to understand business needs
- Working within the team to identify risks and create tests to mitigate
- Focus on enhancing testing skills to include corner cases
- Be responsible for your tasks and story completion
- Analyze requirements for testability, pointing out gaps and potential pitfalls
- Communicate issues as they are found immediately to team to ensure the proper attention is given to resolutions
- Work with the team to troubleshoot/determine resolution for simple issues in your team's domain
- Provides technical support on components, material methods, systems and equipment.
- Assists in developing physical and functional test requirements to assure specifications & regulations are met.
- Directly report to PM/QC lead in the account

Requirements:

To be successful candidate for this role, you have:

- Bachelor's degree or higher in Computer Science, Information Technology or related field
- 0 year experience in software testing
- Basic knowledge of software testing methodologies, tools and processes
- Have knowledge in writing clear, concise and comprehensive test plans and test cases
- Hands-on experience with both white box and black box testing
- Have knowledge with performance and/or security testing is a plus
- Intermediate English level
- Good collaboration, and communication skills and strong team working ability.
